On November 18th, the Allegheny County Health Department announced a stay at home advisory, recommending that individuals stay home except for work, school or to obtain essentials like food and medicine. In response to this advisory, as well as the increasing number of positive Covid-19 cases, PCTV will close to the public for two weeks beginning November 19th through December 5th. If you have studio time booked during this period, you will be contacted to reschedule. If you have an urgent matter to discuss during this period, you can contact PCTV at 412-322-7570. However, no in person visits to PCTV will be permitted while we are closed to the public.

The closure only affects activities going on in PCTV’s facilities. Remote productions and any activities going on virtually will continue. In addition, PCTV staff will be on site during business hours 9 am to 5 pm to respond to telephone inquiries.

During the week of November 30th, we will decide about whether to extend our closure. Anyone with studio time after December 5th will be contacted if your booked time needs to be rescheduled.

We encourage all residents of Allegheny County to follow the stay at home advisory by staying at home and only going out for work, school, medical appointments, or to get food or medicine. In order to avoid overwhelming our medical facilities, we need to bring the number of positive cases down. We can do that by staying home, washing hands frequently, wearing a mask and practicing social distancing. If we all work together, we can bring the number of positive Covid-19 cases down and avoid a stay at home order.
